MEMO FOR THE RECORD: CALL FROM: REGARDING OBSERVATION ON SUNDAY 20 FEBRUARY 1966.

regarding his observation of 20 Feb 65, at 140 pm. Object was going terribly fast.

Illusionary thing. Couldn't M judge height. Appeared to be a canopy falling off and towards earth then the thing level out and flew away. At first he thought theobject was going to either fall in his back yard or his neighbor's back yard. Dark inking black exhaust changing to white, one second pulsating. Came from North almost going directly South.

Couldn;ttell height, object had a funny way of concealing height, it was like it was intelligently controlled. Weather was clear. Wind was going same directions object.

Thought at first they were experimenting from the field (WPAFB). He called the television station and said that he would verify an unidentified object if anyone else saw one.

He has a book on flying saucers by Adamski and is in this book there is a picture like the one he saw. Mr asked that we not reveal his name. We replied that no names are given out.

A Form 164 was sent to Men on 3 Mar 66

## U.S. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.
