2 7 AUG 1965

TO: AFSC(FTD)
Wright Patterson AFB, Ohio 45433

- 1. An investigation of the reported UFO sightings on 7 August 1965 at Andrews, Texas and on 12 August 1965 at Happy, Texas (reference attachment #1) has been accomplished.
- 2. The following information is submitted on the sighting at Happy, Texas.
  - a. Description of object:
    - (1) Round
    - (2) About the size of a nickle held at arms length.
    - (3) White light
    - (4) One
    - (5) N/A
    - (6) Resembled a white light.
    - (7) None
    - (8) None
    - (9) None
  - b. Description of course of object:
    - (1) Just happened to look up.

DIKECTIONS IN.

(2) East at about a 30° angle of elevation.

LETTER

(3) West southwest at horizon.

()) West southwest at norizon.

(4) A straight line course from east toward west southwest:

(5) Beyond the horizon to the west southwest. SE

(6) About 2 to 3 minutes.

## k. Comments of preparing officer:

The family appeared hospitable and cooperative, answering all questions asked without drawing any conclusions. The children were well informed on UFO sightings in and around this area and had read numerous books and newspaper articles on the subject. The parents stated that the object did not appear to be a meteorite or an airplane since in their opinion it was slower than the former and faster than the latter. Amarillo Approach Control radar and the 688th AC&W Squadron had no contact with the object. Since there are no airways in the vicinity, the probability of the object being an aircraft is slight. In the opinion of the investigating officer, the object was either a large meteorite or a satellite.

- 3. The information on the sighting at Andrews, Texas, is identical to that listed above with the following exceptions:
  - b. (3) About 20° above horizon
    - (4) A straight line from northwest to southeast.
    - (5) Disappeared into a cloud bank.
  - d. (1) 11002 5) August 1965
    - (2) Dawn 7 J SECONDS
  - e. 32° 20' N, 102° 32' W, Andrews, Texas.
  - f. Sharian Stallings
  - g. (1) Broken intermediate clouds, thunderstorms to the SW.
    - (2) Weather report from Webb AFB, Texas:

160/11
100/10
030/10
010/30
350/20
340/35
270/10

- (3) None
- (4) 25

- c. Manner of observation:
  - (1) Ground visual
  - (2) No optical aids used
  - (3) N/A
- d. Time and date of sighting:
  - (1) 0316Z 13 August 1965
  - (2) Night
- e. Location of observers:

35° 48' 20" N, 101° 34' 30" W

A farm 15 miles NE of Happy, Texas.

- f. Identifying information on observers:
- (1) Mr. Babout 55. Happy, Texas, farmer, very reliable. Mrs. Lage unknown Happy, Texas, housewife, very reliable. Miss about 13, same address, impressionable but generally exact in detail. A son of Mr. & Mrs. Lage unknown about 10, same address, confirmed details but otherwise uncommunicative.
  - g. Weather and winds:
    - (1) Observers account: Clear, visibility good.
    - (2) Report from Amarillo AFB Weather Office:
      - (a) Winds:

6000 150/15
10000 200/10
16000 050/20
20000 040/28
50000 025/22

Vertical temperature gradient: Surface inversion to 5100 MSL, standard lapse rate to 11,800 MSL, inversion aloft to 13,100 MSL, slighting less than standard lapse rate higher than 13,100 MSL.

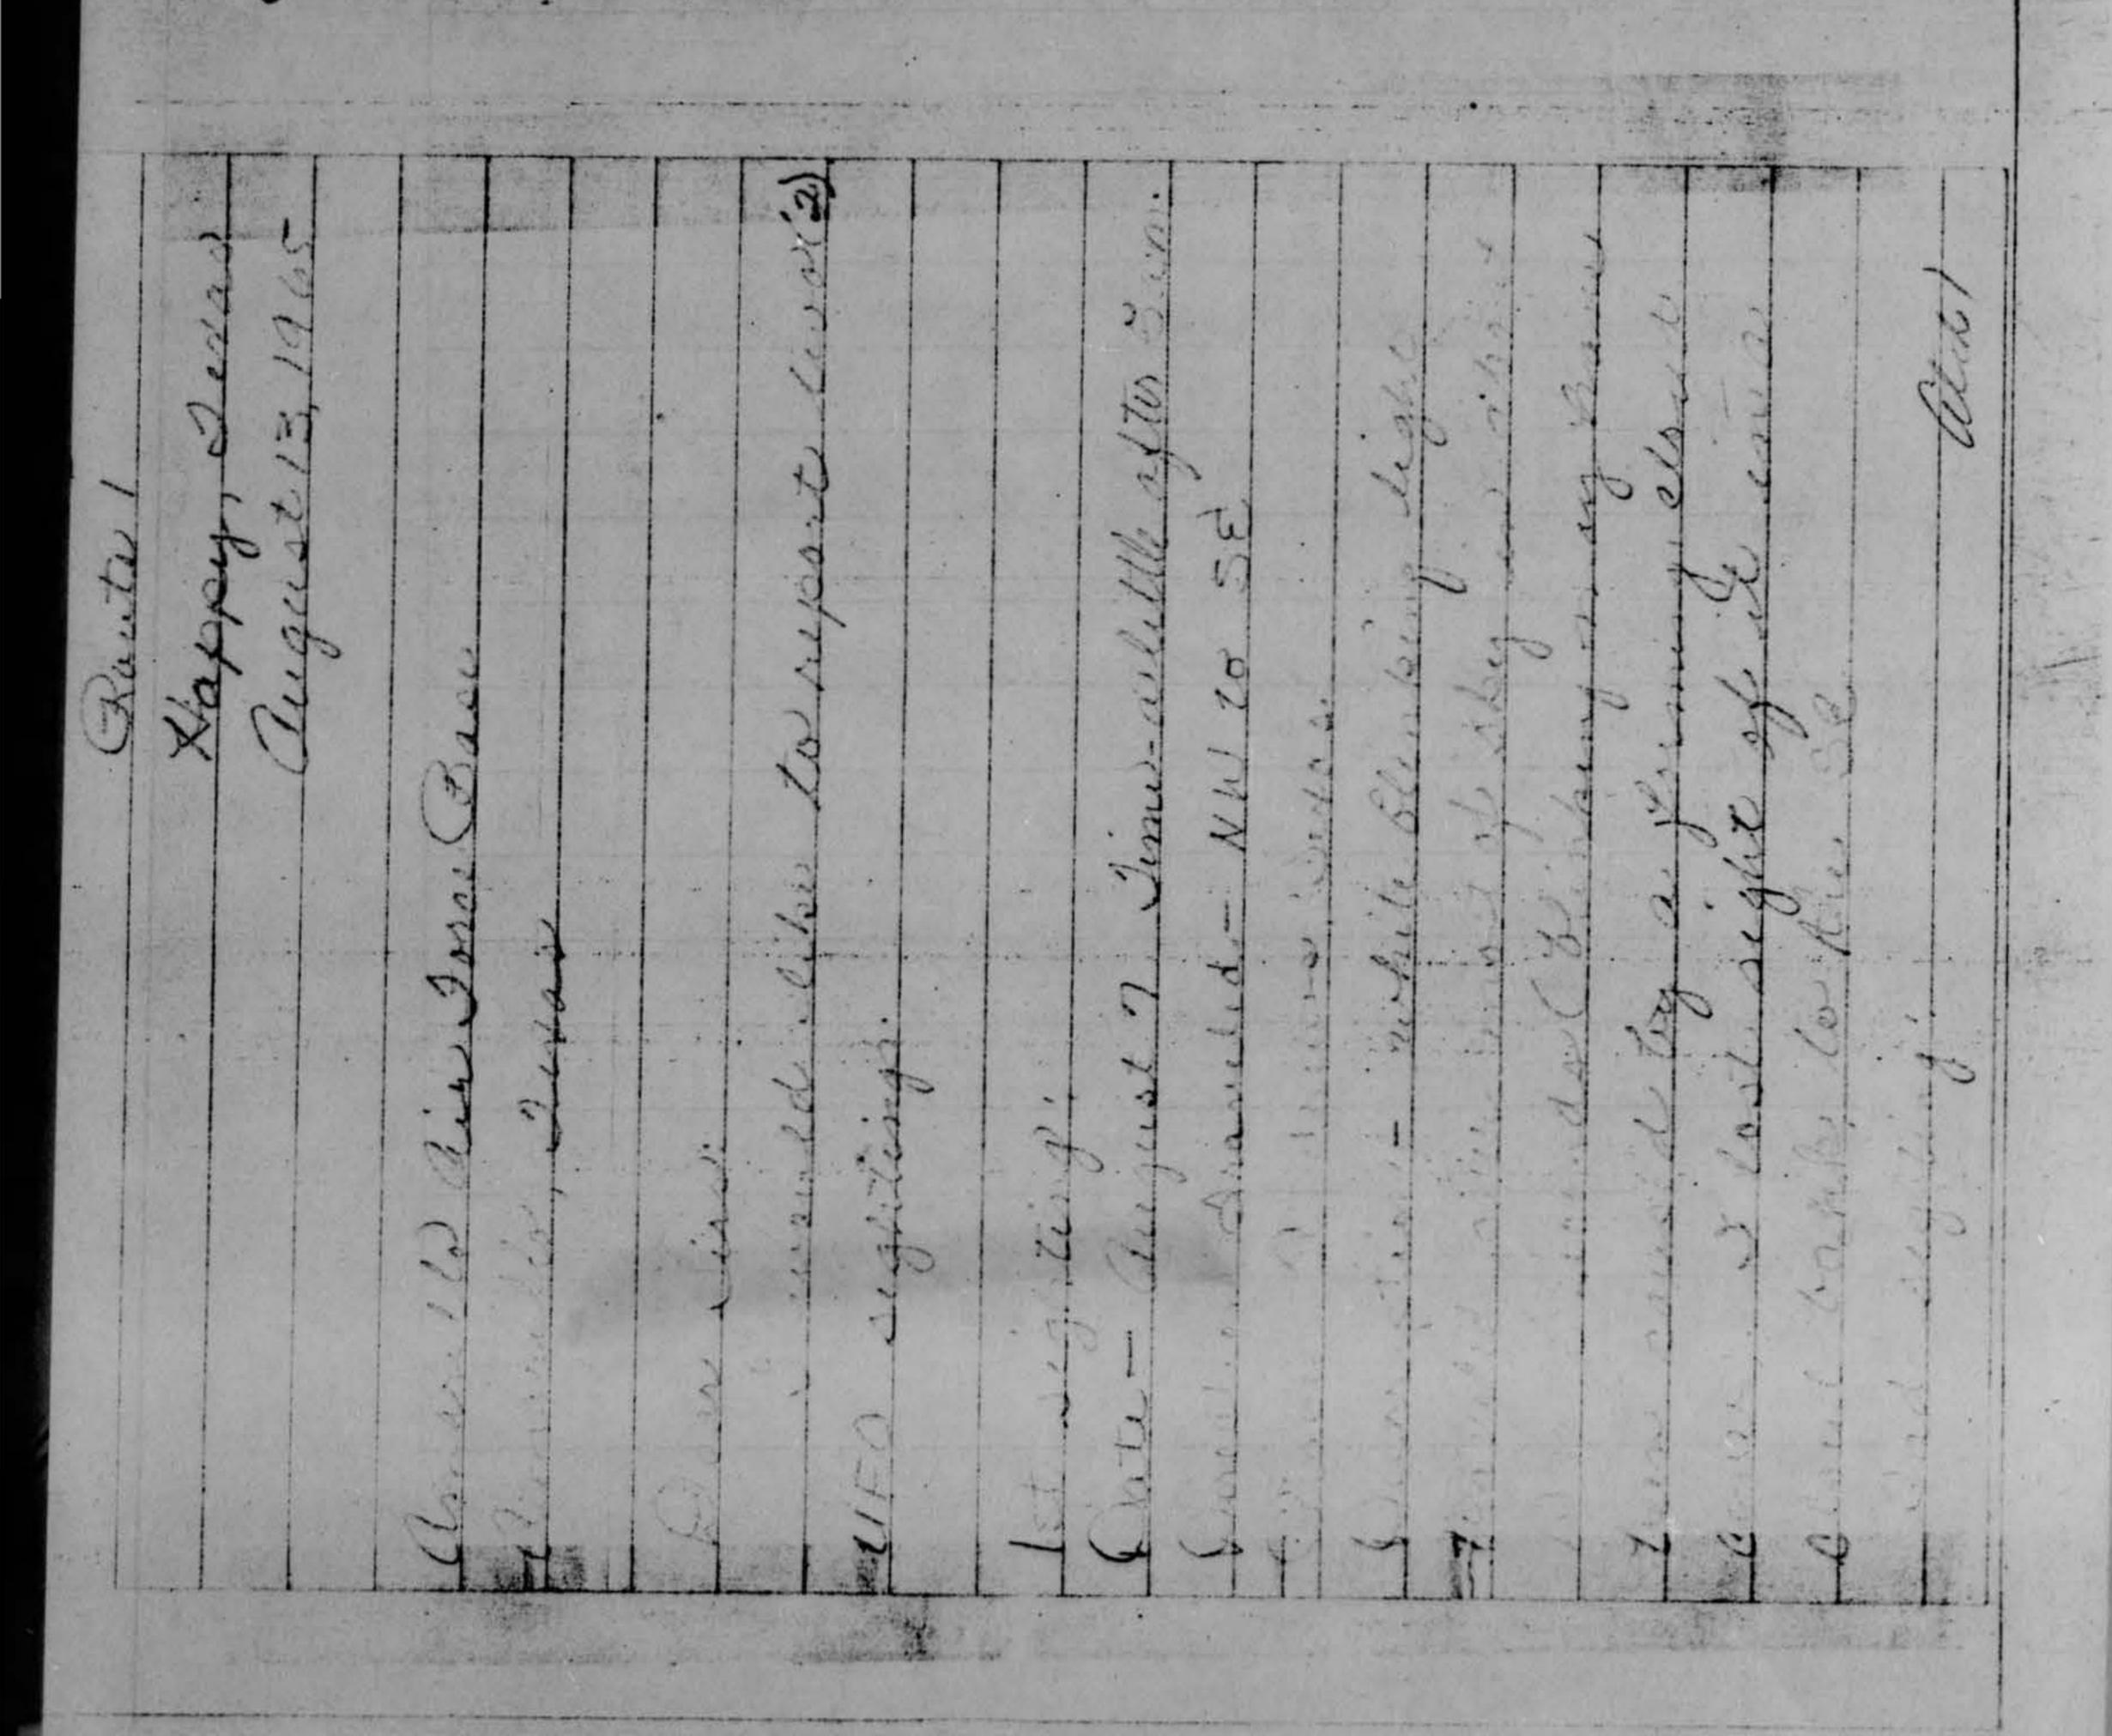

h. through j. Mone

- (5) Less than 4/8
- (6) TRW to the south

(7) Less than standard lapse rate up to 19500, Radiation inversion from 3000 to 6000, upper air inversion from 19500 to 21500. Greater than standard lapse rate above 21500.
