Dear Gentlemen:

Thank you very much for answering my letter I sent you requesting information on UFO's.

Enclosed is a questionnaire with information concerning a UFO I saw on August 25, 1967, while watching for meteors.

Sincerely yours,

Profes 30 ledus. AIR FORCE TECHNICAL INFORMATION

This questionnaire has been prepared so that you can give the U.S. Air Force as much information as possible concerning the unidentified aerial phenomenon that you have observed. Please try to answer as many questions as you possibly can. The information that you give will be used for research purposes. Your name will not be used in connection with any statements, conclusions, or publications without your permission. We request this personal information so that if it is deemed necessary, we may contact you for further details.

14. Did the object disappear while you were watching it? If so, how? Yes. It was bright at first but it dimned and headed North at what appeared to be a slow speed.				
15. Did the object move behind something at any time, particularly a cloud? (Circle One): (Yes) No Don't Know. IF you answered YES, then tell what it moved behind: trees.				
16. Did the object move in front of something at any time, particularly a cloud? (Circle One): Yes (No) Don't Know. IF you answered YES, then tell what in front of:				
17. Tell in a few words the following things about the object: a. Sound We couldn't make out any sound, it might have been too far away. b. Color It was a very bright and luminous white.				
18. We wish to know the angular size. Hold a match stick at arm's length in line with a known object and note how much of the object is covered by the head of the match. If you had performed this experiment at the time of the sighting, how much of the object would have been covered by the match head?				
It would probably be slightly larger than the match head.				
19. Draw a picture that will show the shape of the object or objects. Label and include in your sketch any details of the object that you saw such as wings, protrusions, etc., and especially exhaust trails or vapor trails. Place an arrow beside the drawing to show the direction the object was moving. NOTE: THE REO WASN'T QUITE THAT LARGE COMPARED TO the TREES.
