Major Hector Omntonilla Jr. 2470 Investigative Center Wright Patterson au Force Base Dayton. Ohio

Dear Major Omntamilla:

I write theo letter to tell you of one of my experiences with U. FO's in the part gear. It was about 8:30 Bm. I and about five of my friends and their mother was standing outside talkenj, about a month earden wer lad organized a sky-vateling group. One of the girls in the group lanking in the oby and sould that a large star and its moving very fast: I paid ne star can more that fast and why it is large. It was roughly the size of a minker, at was now in lopes towards the sait from the most we so if surveying the area. I started to walk under it. I followed it for about 4 thocks there it seemed to decend until it was about the sezie of a half-dallar ther all of a sudden I now coming from the south come

a squardron of geto about & of them, they experated into four groups of two they traveled north two miles and turned around they did this about eight times. I ran and got four of my friends who went with me to see of we could see anything more we where just in time to see the jeto leave, but two of them went in another derection as if to be following the U. F. O which could only be seen as a teny speak in a clark clear why The mather who wood with us saidshe had never seen anything like this before. it was funny or ever mon, faratastice. We called the galia and they told us That many other people from around the area had reported it also. I don't quite remember the doile, but it was obsut august 5, 1967 and it was a very clear night. I would like you to send me any men information on on on address where I can send for this information afour Truly,

TDPT (UFO) Maj Quintanilla/70916/mhs/29 Nov 67 UFO Observation, August 5, 1967

This replies to your letter of Movember 12 on unidentified flying objects (UFOs). We appreciated learning of your unusual experience and will file your letter for information purposes. At this late date it would be impractical to undertake a detailed investigation into your sighting of August 5, 1967. It is important that a witness report his observation as soon as possible. This enables Air Force analysts to perform a comprehensive investigation.

RECTOR QUINTANILLA, Jr, Major, USAF Enief, Aerial Phenomena Office Aerospace Technologies Division Production Directorate
